

Address: Department of Mathematics and Statistics, University of Cyprus
1 University Avenue, 2109 Nicosia, Cyprus

Email: agapiou.sergios@ucy.ac.cy

Homepage: <http://www.sergiosagapiou.com>

Phone: +357 22 89 3919

Citizenship: Cypriot

Date and place of birth: 7th May 1984, Nicosia, Cyprus

Research Interests: Problems at the interface of Differential Equations and Probability/Statistics. Bayesian nonparametric Statistics with an emphasis on regularization of inverse problems: theoretical foundation, asymptotic performance of posterior distributions in the infinitely-informative data limit, design and analysis of sampling algorithms in high dimensions, unbiased estimation of posterior expectations.

Academic Positions

- 2019 - present, Assistant Professor
Department of Mathematics and Statistics, University of Cyprus
 - 2015 - 2019, Lecturer
Department of Mathematics and Statistics, University of Cyprus
 - 2014 - 2015, Postdoctoral Research Fellow
Department of Statistics, University of Warwick
 - Position under the EPSRC funded project
Enabling Quantification of Uncertainty in Inverse Problems (EQUIP)
 - Supervisor: Professor Gareth Roberts
 - 2013 - 2014, Postdoctoral Research Fellow
Mathematics Institute, University of Warwick
 - Position under the ERC funded project
Problems at the Applied Mathematics-Statistics interface (AMSTAT)
 - Supervisor: Professor Andrew Stuart
-

University Education

- 2013, PhD in Mathematics
University of Warwick
 - Supervisor: Professor Andrew Stuart.
 - 2010, MSc in Mathematics (Distinction)
University of Warwick
 - Dissertation supervisor: Professor Andrew Stuart
 - 2009, BSc in Applied Mathematical and Physical Sciences (First Class)
National Technical University of Athens
 - University Medal for graduating top in School's class of 2009
 - Dissertation supervisor: Professor Spiros Argyros
-

Publications

A. In Refereed Journals

- S. Agapiou and P. Mathé, *Designing truncated priors for direct and inverse Bayesian problems*, Electronic Journal of Statistics 16(1) (2022) 158-200
- S. Agapiou, M. Dashti and T. Helin, *Rates of contraction of posterior distributions based on p -exponential product priors*, Bernoulli 27(3) (2021) 1616-1642
- S. Agapiou, M. Burger, M. Dashti and T. Helin, *Sparsity-promoting and edge-preserving maximum a posteriori estimators in non-parametric Bayesian inverse problems*, Inverse Problems 34(4) (2018) 045002
- S. Agapiou, G. O. Roberts and S. J. Vollmer, *Unbiased Monte Carlo: posterior estimation for intractable/infinite-dimensional models*, Bernoulli 24(3) (2018) 1726-1786
- S. Agapiou, O. Papaspiliopoulos, D. Sanz-Alonso and A. M. Stuart, *Importance Sampling: intrinsic dimension and computational cost*, Statistical Science 32(3) (2017) 405-431
- S. Agapiou, J. M. Bardsley, O. Papaspiliopoulos and A. M. Stuart, *Analysis of the Gibbs sampler for hierarchical inverse problems*, SIAM/ASA Journal on Uncertainty Quantification 2(1) (2014) 511-544
- S. Agapiou, A. M. Stuart and Yuan-Xiang Zhang, *Bayesian posterior contraction rates for linear severely ill-posed inverse problems*, Journal of Inverse and Ill-Posed Problems 22(3) (2014) 297-321
- S. Agapiou, S. Larsson and A. M. Stuart, *Posterior contraction rates for the Bayesian approach to linear ill-posed inverse problems*, Stochastic Processes and their Applications 123(10) (2013) 3828-3860

B. Book Chapters and Conference Proceedings (refereed)

- S. Agapiou and P. Mathé, *Posterior contraction in Bayesian Inverse Problems under Gaussian priors*, New trends in parameter identification for mathematical models, Springer Trends in Mathematics series (2018) 1-29

C. Theses

- S. Agapiou, *Aspects of Bayesian inverse problems*, PhD dissertation, University of Warwick (2013)
- S. Agapiou, *A classical and a Bayesian approach to linear ill-posed inverse problems*, MSc dissertation, University of Warwick (2010)
- S. Agapiou, *Stable and infinitely divisible distributions*, BSc dissertation, National Technical University of Athens (2009)

Preprints and Work in Progress

- *Laplace priors and spatial inhomogeneity in Bayesian inverse problems*, with S. Wang (arXiv:2112.05679).

Scholarships and Awards

- Shortlisted for the Faculty of Pure and Applied Sciences teaching award, 2021 (decision pending)
- MSc and PhD funding through Professor Andrew Stuart's ERC grant AMSTAT, 2008/09-2012/13
- Scholarship for undergraduate studies by Greek Scholarships Foundation, 2004/05-2008/09
- Awards for performance as an undergraduate student at the School of Applied Mathematical and Physical Sciences, NTUA
 - Charalambos Chrysovergis award and University Medal for graduating top in School's class of 2009 (average grade 9.69/10)
 - Greek Scholarships Foundation annual awards and honorary scholarships for excellent performance, 2004/05-2008/09
 - Demetres Thomaidis Foundation awards for School's highest year-average grade, 2004/05, 2007/08, 2008/09
 - Christos Papakyriakopoulos awards for School's highest average grades in first and second year mathematics, 2004/05, 2005/06
 - Nikolaos Kritikos scholarship for highest average grade in first year Mathematics, 2004/05
 - Evangelos-Manthos Anastasakis award for highest average grade in first and second year Physics, 2004/05-2005/06

- Participated in successful MSCA-COFUND-FP proposal, "ONISILOS"
- Participated in successful Centre for Teaching and Learning proposal, "Mathematical Modelling: an online experience" (7500 euro)

Talks (invited talks in bold, titles and slides available on homepage)

- 2021: ECOSTA2021 (Zoom, Hong Kong)
 - 2020: **CMX seminar (Caltech)**, **Statistics seminar (Cambridge)**, **International Bayes Club (Zoom)**, CMStatistics (Zoom, King's Kollege)
 - 2019: **Uncertainty Quantification workshop (Oberwolfach)**, **Bayesian nonparametrics conference (Oxford)**, Applied Inverse Problems conference (Grenoble), **University of Haifa - University of Cyprus Workshop in Statistics (Haifa)**
 - 2018: **Uncertainty quantification in complex nonparametric models (Lorentz center, Leiden)**, Vilnius conference on probability theory and mathematical statistics and IMS annual meeting on probability and statistics (Vilnius), **EQUIP grant final meeting (Warwick)**, **Statistics seminar (Bocconi)**, Greek Stochastics κ' (Athens)
 - 2017: Applied Inverse Problems conference (Hangzhou), Algorithms and Computationally Intensive Inference seminar (Warwick), Greek Stochastics ι' (Milos), **Bayesian and Nonlinear Inverse Problems workshop (Lorentz center, Leiden)**
 - 2016: **EQUIP/AIB Meeting: Data Assimilation and Inverse Problems (Warwick)**, **Joint Scientific Computation and Statistics seminar (Nottingham)**, **Retrospective Monte Carlo Workshop (Warwick)**
 - 2015: Algorithms and Computationally Intensive Inference seminar (Warwick), **Computational Statistics seminar (University College London)**, MiR@W day Uncertainty in Complex Computer Models (Warwick), **Statistics seminar (Imperial College London)**, Applied Inverse Problems conference (Helsinki), Reading-Warwick Data Assimilation day (Reading)
 - 2014: Greek Stochastics ζ' (Athens), EQUIP lunch seminar (Warwick), Reading-Warwick Data Assimilation meeting (Warwick), Monte Carlo and Quasi Monte Carlo conference (Leuven), SIAM conference on Uncertainty Quantification (Savannah)
 - 2013: CSC@lunchtime seminar (Warwick), **Bayesian Nonparametrics conference (Amsterdam)**, Inverse Problems and Applications conference (Linköping), **Stochastic Analysis seminar (Oxford)**
 - 2012: **Canberra Symposium on Regularization (Australian National University)**, NSF/CBMS conference on Small Deviation Probabilities (Huntsville), Bayesian Inverse Problems workshop (Warwick), Numerical Analysis postgraduate workshop (Reading)
 - 2011: **Computational and Applied Mathematics seminar (Chalmers University of Technology)**, Young Researchers in Mathematics conference (Warwick)
-

Invited Research Visits

- Prof. Richard Nickl (Cambridge University), 4 weeks, February 2020
 - Prof. Andrew Stuart (California Institute of Technology), 2 weeks, January 2020
 - Dr Masoumeh Dashti (Sussex University), 1 week, August 2018
 - Dr Tapio Helin (University of Helsinki), 1 week, April 2017
 - Prof. Peter Math (Weierstrass Institute), 1 week, May 2014
 - Prof. Omiros Papaspiliopoulos (Universitat Pompeu Fabra), 2x1 week, March 2013 and April 2014
 - Prof. Stig Larsson (Chalmers University of Technology), 1 week, September 2011
-

Conference and Minisymposium organizer

- Local Organization Committee chair and Scientific Committee member Bayesian Nonparametrics Networking event, Nicosia 2022
 - Co-organizer of the International Symposium for Nonparametric Statistics (ISNPS), Paphos 2021
 - Co-organizer of annual *Pancyprian Statistics Day*, 2018-present
 - Co-organizer of mini-symposia *Bayesian inverse problems with non-Gaussian priors* and *Communications in uncertainty quantification and inverse problems*, in AIP2017 conference at Hangzhou
 - Co-organizer of mini-symposium *Markov chain Monte Carlo in high dimensions*, in MCQMC2014 conference at KU Leuven
 - Co-organizer of the EQUIP lunch seminar and organizer of postdoc reading group on the Bayesian approach to inverse problems, 2014/15
-

Teaching Experience

- Lecturer of Topics in Statistics, Winter term 2015/16, 2016/17
University of Cyprus (MSc course on topics from the area of Statistical Learning)
 - Lecturer of Generalized Linear Models, Spring term 2015/16, 2017/18
University of Cyprus (MSc course on topics from Statistical Regression)
 - Lecturer of Linear Models II, Spring term 2015/16-2018/19
University of Cyprus (4th-year undergraduate course on statistical regression, model selection, classification)
 - Lecturer of Simulation and Data Analysis, Winter term 2016/17-2018/19
University of Cyprus (MSc course on introduction to Statistical simulation using R)
 - Lecturer of Statistical Data Analysis, Spring term 2018/19, 2020/21, 2021/22
University of Cyprus (3rd-year undergraduate course on introduction to Statistical simulation using R)
 - Lecturer of Linear Models I, Winter term 2019/20, 2020/21, 2021/22
University of Cyprus (4th-year undergraduate introductory course to regression and analysis of variance)
 - Lecturer of Probability Theory, Winter term 2019/20
University of Cyprus (3rd-year undergraduate course on metrotheoretic probability theory)
 - Lecturer of Statistical Learning, Spring term 2021/22
University of Cyprus (core course of MSc in Data Science)
 - Lecturer of Control Theory, Winter terms 2013/14, 2014/15
University of Warwick (3rd-year undergraduate course introducing controllability, observability, stabilizability, Gaussian probability, filtering/smoothing and optimal control)
 - Assistant for lecture series on Bayesian inverse problems by Professor Andrew Stuart, 05/2012 & 07/2012
Göttingen University and Peking University
 - Taught supplementary lectures and helped with preparation of lecture notes
 - Research level week-long course introducing prior modelling in function space, Bayes theorem for PDE inverse problems, well-posedness and approximation of posterior distributions, and algorithms for probing the posterior.
 - Assistant for lecture series on Data Assimilation by Professor Andrew Stuart, 07/2012
Peking University
 - Taught supplementary lectures and helped with preparation of lecture notes
 - Research level week-long course introducing the discrete-time filtering and smoothing problems, the most important relevant algorithms, and briefly discussing the continuous-time case.
-

Departmental Service at the Department of Mathematics and Statistics University of Cyprus

- Co-director of interdisciplinary postgraduate program in Data Science, 2017-present
- Member of postgraduate studies committee, 2018-2020
- Responsible for the Department's internship program, 2018-present
- Department's representative in organizing committee of the national phase of the European Statistics Competition 2018-present
- Co-organizer of educational day for high school students with topic *Why study Mathematics and Statistics?*, 2019
- Responsible for department's outreach and public relations, 2018-2019
- Member of committee for formulation of departmental strategic plan, 2018
- Organizer of the Mathematics and Statistics colloquium, 2015-2017
- Member of undergraduate studies committee, 2016-2017
- Member of publishing committee, 2015-2016, 2018-2019
- Responsible for comprehensive exams in Simulation and Data Analysis for PhD candidates, 2016-2018
- Internal examiner of Charalambos Charalambous PhD thesis, *Probability Inequalities and Related Asymptotic Results for U-statistics Based on Associated and Negatively Associated Random Variables*, 2021
- Internal examiner of Dimitrios Pilavakis Phd thesis, *Bootstrap methods for functional time-series*, 2019
- Internal examiner of Andreas Makrides' PhD thesis, *Statistical inference for multi-state reliability systems*, 2016

Other Academic Activities

- PhD advisor of Aimilia Savva, 2019-present
- Founding member and board member of Cyprus Statistical Society, 2017-present
- Referee for *Annals of Statistics*, *Annals of Applied Probability*, *Journal of the Royal Statistical Society B*, *Journal of Machine Learning Research*, *Mathematical Statistics and Learning*, *Electronic Journal of Statistics*, *Scandinavian Journal of Statistics*, *Bernoulli*, *Statistics and Computing*, *Journal of Statistical Planning and Inference*, *SIAM Journal on Uncertainty Quantification*, *Methodology and Computing in Applied Probability*, *Inverse Problems*, *Inverse Problems and Imaging*, *Journal of Complexity*, and *Mathematics of Computation*

- Member of the International Society of Bayesian Analysis Prize Committee
- Mentoring of MASDOC PhD students Daniel Sanz-Alonso (currently faculty at University of Chicago) and Matthew Thorpe (current faculty at University of Manchester), University of Warwick, 2013-2015
- Served as consultant for National Examinations Services, on statistical analysis of exam results, 2019
